INNOVATING INCLUSION: TECH SOLUTIONS & INSIGHTS FROM WINVINAYA!

Happy Deepavali, from WinVinaya. May this festival bring light, joy, and the warmth of community to you and your loved ones. In this spirit, we're excited to share our recent strides in innovation, inclusivity, and impactful opportunities for you to join WinVinaya's mission of building a more inclusive world.

Introducing NammAcademy: Where Innovation Meets Inclusive Learning

We are thrilled to announce the launch of NammAcademy on Vijaya Dasami, October 12, 2024! NammAcademy is a transformative space where inclusion meets opportunity. Whether you're an individual with a disability or not, NammAcademy offers a place to learn, share, and grow together.

Imagine what's possible: Corporate teams rolling out Disability Awareness programs to foster inclusion. A learner with visual impairment mastering cooking, a person with hearing impairment exploring freelancing tips in Indian Sign Language to boost income and a woman entrepreneur in North Karnataka access digital marketing skills in Kannada to scale business.

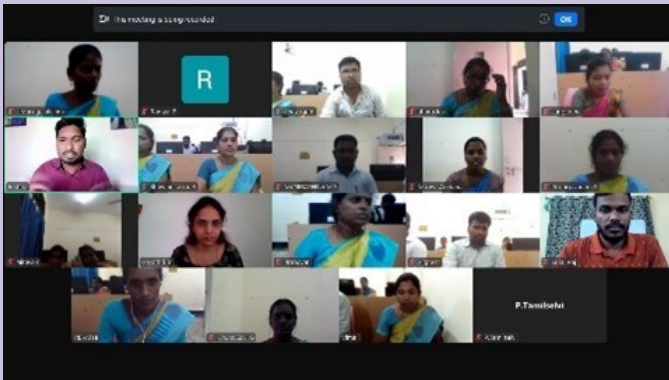

Curious about what we offer? NammAcademy's range includes Life Skills like Cooking and

Communication, in-demand Digital and IT Skills, Disability Inclusion and Entrepreneurship training to empower learners and prepare them for leadership. Our platform provides practice sessions and assessments to build real-world skills, with courses available in Indian Sign Language, English, and other Indian languages. Explore high-quality content from WinVinaya and partners. Have a course idea? Let us know at info@WinVinaya.com. Join us at NammAcademy and be part of a vibrant, inclusive learning community!

Breaking Barriers: ISL Training Equips Participants to Support the Deaf Community

We are excited to announce the successful completion of our 10-day Indian Sign Language (ISL) basic training program for the Rangammal Memorial Rehabilitation Society,

Thiruvannamalai. Over this enriching journey, we had the pleasure of training 30 enthusiastic teachers, whose feedback has been inspiring!

Here are some highlights:

Empowering Experience: “The sessions were incredibly engaging! Huge thanks to Mr. Joshua, Mr. Solai, and Mrs. Gayathri for their support and positive energy.”

Confidence to Teach: “I now feel excited and confident to teach sign language.”

Supporting Our Children: “As a parent of a child with hearing impairment, this training has equipped me to support my child better.”

The commitment of our participants made this training memorable, and we look forward to enhancing future programs! If your organization is interested in ISL training, please contact us at info@WinVinaya.com.

Engaging Directors in Data-Driven Insights with Power BI Training

On 25th October, we had the privilege of conducting an introductory Power BI training session tailored for a group of directors and coordinators for a reputed NGO in Bengaluru.

With a total of 19 participants, the session explored key Power BI capabilities, including Power BI Desktop features, foundational report development, and essential visualizations. Designed to be energetic and engaging, the session encouraged active participation, creating an interactive environment that sparked interest in data-driven insights.

This was the first session in a series, and we look forward to continuing this journey with an upcoming session, where participants will further deepen their skills in Power BI.

Let's unlock the potential of data together!

A New Chapter with a premier Engineering college in Bengaluru: Breaking Barriers in Accessible Education

This month, WinVinaya embarked on an inspiring partnership with premier Engineering college in Bengaluru to foster an inclusive environment in their Post Graduate Diploma in Product Management program. Five students with visually impairment needed additional support, particularly in the Statistical Data Analysis subject, where charts and graphics lacked effective descriptions.

To address this, our dedicated inclusive leaders, Baskaran, Kasthuri and Divya, developed purpose-driven alternatives for these visuals, enabling students to engage with complex data and participate fully in discussions. Additionally, Avinash, our accessible tester with visual impairment, assisted by utilizing screen readers to enhance the learning experience for these students.

The impact was profound. Students reported feeling more connected to the content, demonstrating the power of collaboration in breaking down barriers.

This partnership transcends accessibility; it reflects the commitment of the progressive education institution and WinVinaya to inclusion and empowerment. We invite others to join us in transforming education and creating accessible solutions for all. Together, we can unlock potential and set new standards for inclusivity. Join us on this journey!

Mobile App Accessibility: Testing

At WinVinaya, we are dedicated to making technology inclusive. We are excited to announce that our team has

completed the first part of accessibility testing for a mobile app that enables persons with disabilities to create resumes. Future versions aim to evolve mobile app into a dedicated job portal for this community.

With insights from a user with visual impairment and our accessibility specialist, the app was thoroughly tested using TalkBack to ensure ease of use for all. Their feedback is already shaping it into a user-friendly app, especially for those relying on assistive technology. This work furthers our mission to break digital barriers and set new standards for inclusive design.

If you're interested in similar accessibility testing services, please contact us at info@WinVinaya.com. Stay tuned as we continue building an accessible future!
